

### **Amendments to the Claims**

The following listing of claims will replace all prior versions, and listings, of claims in the application.

1. (Previously presented) A method performed by a computer system, comprising:
  - storing an electronic version of a paper, wherein the electronic version is displayable on a display device as a likeness of the paper;
  - detecting content of a first portion of the likeness; and
  - after the detecting of the content, and in response thereto, forming a hyperlink reference and embedding the hyperlink reference within at least part of the content of the first portion of the likeness, wherein the hyperlink reference is associated with a second portion of the likeness, such that when the first portion of the likeness is displayed on the display device, at least a portion of the content is selectable by a user to cause the computer system to display the second portion of the likeness on the display device, and wherein the content is at least one of the following: a term that indicates a location at which the second portion of the likeness is located within the paper; and a phrase that indicates the location.
